ABOUT ME

More than 16 Years of experience as an HSE field is now seeking work as a safety professional to use the skill in managing people and knowledge of safety protocols for making the work environment safe while gaining professional growth.

WORK EXPERIENCE

HSE Manager | NEOM NRC25 |

MOBCO Civil Construction [Jun 2023 – Current]

City: NEOM

Country: Saudi Arabia

- Assist the Project Manager in the running of the project.
- Review and approve contractor's health, safety, and environmental plans, risk assessments, and method statements to ensure compliance with legal and client requirements before starting the works.
- Develop and deliver comprehensive health, safety, and environmental training to consultant employees, including induction and safe working practices.
- Supervise a team of HSE Inspectors to ensure adherence to HSE plan at project sites, meeting all legal and client requirements.
- Supervise HSE Inspectors to ensure the implementation of health and safety arrangements at site, complying with legal and client requirements.
- Ensure HSE Inspectors follow up on contractor's incident investigation reports, ensuring identification and closure of corrective actions to prevent recurrence.
- Schedule daily morning site visits across project sites to verify the implementation of HSE measures before work begins.
- Conduct weekly joint HSE inspections with HSE Inspectors and contractors HSE representatives, ensuring prompt closure of all corrective/preventive actions.
- Coordinate HSE meetings with the Client, NRC project staff, and contractors.
- Conduct regular site safety visits.

HSE Manager | Dabaa Nuclear Power Plant Project |

Worley / Engineering Consultants Group (J.V.) [November 2020 – November 2022]

Country: Egypt

- Conducts comprehensive reviews of potential risks on projects (HS&E, contracting, and insurance) and identifies potential mitigation measures.
- Maintains expert knowledge of specific requirements imposed by governmental agencies and policies and procedures.
- Provides technical leadership and guidance to regional staff to ensure occupational HS&E regulations and policies are understood and being enforced.
- Conducts HS&E training.
- Acts as a technical expert.
- Provides HS&E leadership and establishes safety culture within region.

- Develops and implements a regional HS&E communication plan to promote HS&E and increase employees' awareness of HS&E issues and incident prevention methods.
- Identifies need for new HS&E tools, processes, policies and training as well as recommending improvements for existing tools, processes, policies, and training.
