OBJECTIVE:

Dedicated SHES (Safety, Health, Environment, and Security) Supervisor with proven expertise in the oil and gas industry, currently supporting QatarEnergy projects through Tekfen. Committed to enforcing compliance with regulatory and client-specific HSE standards across all operational phases. Skilled in risk assessment, incident investigation, PTW systems, and proactive safety management. Focused on fostering a strong safety culture, minimizing risks, and ensuring safe work practices in high-risk environments.

WORK EXPERIENCE

SHES SUPERVISOR

TEKFEN CONSTRUCTION, RAS LAFFAN, QATAR
March 2025 – Present

- Supervise and ensure compliance with safety, health, environmental, and security protocols at an oil & gas project site.
- Lead daily toolbox talks, safety briefings, and ensure adherence to permit-to-work (PTW) systems.
- Manage a workforce of 256 personnel, ensuring safe work practices and proactive risk mitigation.
- Conduct routine site inspections, audits, and hazard identifications to maintain HSE compliance.
- Lead incident investigations, perform root cause analysis, and implement corrective/preventive measures.
- Oversee environmental monitoring, including air quality, noise, and waste management systems.
- Coordinate with project engineers, subcontractors, and client HSE representatives for seamless SHES operations.
- Enforce proper housekeeping, PPE usage, and monitor high-risk activities like confined space, working at height, and lifting operations.

TECHNICAL EXPERTISE

- Occupational Health & Safety (OHS)
- Food Safety & Quality Assurance
- HACCP Implementation & CCP Monitoring
- Risk Assessment & Hazard Identification
- Site Safety Audits & Inspections
- Regulatory Compliance & Documentation
- Emergency Response & Mock Drills
