

Muhammad Usman

HSE Manager

✉enggrusmankhan444@gmail.com ☎966 59 2284904 📍Jeddah Saudi Arabia

PROFILE

I am a dedicated and highly experienced professional with over 8 years of experience in Health, Safety and Environment field. Throughout my career, I have demonstrated a strong commitment to ensuring the well-being of individuals and organizations by implementing robust safety measures and promoting environmental sustainability. My proven track record includes successful management of Health, safety and Environmental programs, risk assessments, and security protocols. I am passionate about creating safer and healthier environments and look forward to contributing my extensive knowledge to your organization's success.

PROFESSIONAL EXPERIENCE

Project HSE Manager

Saud Alsaadi & Partners Co. General Contracting & Trading (SPC)

10/2023 – till Present

Jeddah, KSA

Roles and Responsibilities:

1. **Safety Compliance:** Ensure strict adherence to all relevant safety regulations, standards, and company policies.
2. **Risk Assessment:** Identify, assess, and mitigate potential safety hazards in the workplace.
3. **Safety Inspections:** Conduct regular inspections and audits to evaluate workplace safety conditions and report findings.
4. **Safety Training:** Develop and deliver safety training programs to educate employees on safe work practices.
5. **Incident Investigation:** Investigate workplace incidents, accidents, and near-misses to determine root causes and implement corrective actions.
6. **Emergency Response:** Establish and implement emergency response plans and procedures for various scenarios.
7. **Safety Documentation:** Maintain accurate safety records, incident reports, and safety-related documentation.
8. **Safety Equipment:** Ensure the availability and proper maintenance of safety equipment and personal protective gear.
9. **Safety Meetings:** Organize and lead safety meetings to communicate safety updates and address concerns.
10. **Environmental Compliance:** Monitor and ensure compliance with environmental regulations and sustainability initiatives.
11. **Safety Culture:** Promote a strong safety culture within the organization by fostering a sense of responsibility among all employees.
12. **Hazardous Materials:** Manage the safe handling, storage, and disposal of hazardous materials.
13. **Safety Improvement:** Identify areas for safety improvement and work with teams to implement safety-enhancing measures.
14. **Safety Reporting:** Prepare and submit safety reports to management and regulatory agencies as required.
15. **Emergency Drills:** Organize and conduct safety drills to prepare employees for emergency situations.
16. **Safety Communication:** Facilitate effective communication of safety-related information to all levels of the organization.
17. **Regulatory Compliance:** Stay up-to-date with changes in safety and environmental regulations and ensure compliance.
18. **Safety Metrics:** Collect and analyze safety performance metrics to track progress and identify areas needing improvement.

19. ****Continuous Improvement:**** Continuously seek opportunities for safety enhancement and develop strategies to achieve higher safety standards.
20. ****Safety Audits:**** Conduct regular safety audits to identify non-compliance issues and recommend corrective actions.
21. ****Safety Leadership:**** Provide guidance and support to management and employees in achieving safety goals.
22. ****Safety Program Development:**** Contribute to the development and implementation of safety policies, programs, and initiatives.
23. ****Emergency Response Planning:**** Develop and test emergency response plans to ensure the organization's readiness for various emergencies.
24. ****Safety Investigations:**** Lead investigations into safety incidents and near-misses, documenting findings and recommending preventive measures.
25. ****Safety Culture Promotion:**** Promote a proactive safety culture, encouraging employee involvement and reporting of safety concerns.
26. ****Safety Reporting Systems:**** Implement and manage safety reporting systems to track incidents and identify trends for improvement.
